

# UNI-BODY VALVES

The innovative patented design of the Magic Uni-Body valve was engineered for use in a wide variety of industries. The built-in Snap-Lock guarantees zero flow restriction during operation while the Cam-Lock function provides a 100% seal when shutoff is needed. We have also added a specially formulated dry lubricant to our Seals and then mold the seals directly to the valve gate, eliminating the need to repair or replace the gate seals. The Magic Uni-Body valve is available in a variety of configurations in 1", 1½", 2" and 2½" IPS sizes.
